

The Mini Remote (1-Scene) remote is an easy-to-use wireless mini-remote control for your INSTEON network.

Like a traditional switch, tapping the top paddle turns your lights (or scenes) on and tapping the bottom paddle turns your lights (or scenes) off; press and hold the top paddle to brighten every light in the scene or press and hold the bottom paddle to dim every light in the scene.

- Easy remote control for INSTEON lighting and appliances
- Elegant design and super-easy setup
- Amazing wireless range - through walls and ceilings
- Award-winning INSTEON dual-mesh technology

## Overview

The Mini Remote is an easy-to-use mini-remote that allows you to control your INSTEON dimmer and relay (on/off) modules. Now you can raise and lower light levels and program scenes for multiple lights and appliances from anywhere in your home or business. The Mini Remote is ultra-easy to install and operate, giving you the most flexibility for a truly smart home with INSTEON.

## How it works

Like a traditional wall switch, tapping the top paddle turns your lights (or scenes) on and tapping the bottom paddle turns your lights (or scenes) off; press and hold the top paddle to brighten every light in the scene or press and hold the bottom paddle to dim every light in the scene. The LED status indicator blinks green for ON commands and red for OFF commands. The LED indicator will also let you know if a device did not acknowledge the command.

Additional programming options allow Mini Remote (1-Scene) to function as a 2-scene controller, making the top paddle control one scene and the bottom paddle control another. This can be set to alternate between ON and OFF for each press (toggle) or only send ON (non-toggle).

## General

Product Name:	INSTEON Mini Remote (1-Scene)
Product Code:	2342-542
Recommended Retail Price:	\$59
In the box:	INSTEON Mini Remote (1-Scene), Quick Start Guide
Warranty:	2 Years

## INSTEON

Scenes:	1 (default), configurable to 2
Scene Configurations:	1 On/Off (default), 2 Toggle or 2 Always On
INSTEON Links:	400
Scene Commands Supported:	On / Off, Fast on / Fast off, Begin brighten / End brighten, Begin dim / End dim
INSTEON RF:	Yes
Frequency RF:	921MHz ISM Band
RF Range:	Up to 50 meters open air
Software configurable:	Yes

## Mechanical

Casing:	UV stabilized plastic (INSTEON White)
LED:	Two-color: Green and Red
LED During Use:	Green flash once (On, Bright, Fast On), Red flash once (Off, Dim, Fast Off)
LED Battery Charge Indicator:	Built-in battery charge LED indicator
Power Switch:	For disabling buttons ("vacation" or "pocket" mode)
Stuck Button Mode:	Saves battery life by going to sleep if button stuck down
Dimensions & Weight:	33mm W x 66mm H x 10mm D - 23g
Operating Conditions:	Indoors, 0° C to 40° C, up to 85% relative humidity

## Electrical

Power:	3.7 VDC Lithium Polymer, Rechargeable, non-replaceable
Battery Charge Hold Duration:	9-12 months based on average 16 button presses per day (will decrease over time)
Battery Recharging Cycles:	>500
Recharging Jack:	Standard, Micro-USB, 5VDC
Recharging Time:	1 hour
Safety approved:	Approved for use in Australia and New Zealand
