

Place a thermostat anywhere you want with the INSTEON Wireless Thermostat linked to your INSTEON Thermostat.

Put it in the master bedroom, in the kitchen, in the guest room--anywhere you want room-specific, customised temperature control. You can add up to two INSTEON Wireless Thermostats to your INSTEON Thermostat.

- Use as an INSTEON temperature and/or humidity controller
- Use as a wireless controller of the INSTEON Thermostat
- Make the temperature comfortable in any room
- Battery-powered with optional power supply connection
- Award-winning INSTEON dual-mesh technology

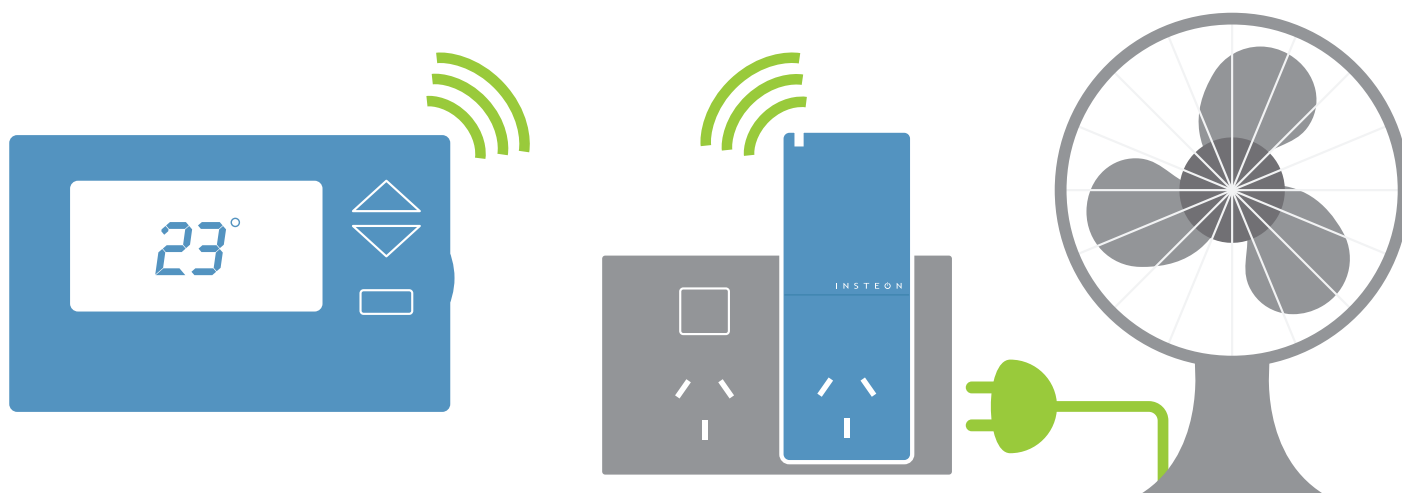

Overview

You can link up to two INSTEON Wireless Thermostats to an INSTEON Thermostat, allowing you to control the HVAC system from anywhere in the house. When linked to an INSTEON Thermostat, the INSTEON Wireless Thermostat can serve as the master thermostat over the HVAC system; just press and hold the Master button, wait for the beep and release. When “Master” appears below the large temperature display, your Wireless Thermostat is now the primary thermostat.

How it works

Additionally, you can use the INSTEON Wireless Thermostat as a standalone controller, activating scenes to turn on heaters and fans based on the room’s temperature and/or humidity status.

- When the A/C kicks in, turn on your ceiling fans to help cool down your home more efficiently
- If the humidity level climbs too high, turn on a dehumidifier with an INSTEON Appliance module
- Program a daily “Return” mode that turns on your A/C and switches on your outside lights so you come home to a safe, relaxing and comfortable home
- Set-up custom heating and cooling routines for individual days, weekdays, weekends, morning or night allowing you to take control of your comfort and energy bills.

General

| | |
|---------------------------|--|
| Product Name: | INSTEON Wireless Thermostat |
| Product Code: | 2732-532 |
| Recommended Retail Price: | \$99 |
| In the box: | INSTEON Wireless Thermostat, 2 x AA Batteries, Quick Start Guide |
| Warranty: | 2 Years |

INSTEON

| | |
|-----------------------------------|--|
| INSTEON Power line Mesh Repeater: | No, uses battery power |
| INSTEON RF Mesh Repeater: | Yes, with DC power adapter (sold separately) |
| INSTEON Controller: | Yes |
| INSTEON Responder: | No |
| Maximum links/scenes: | 400 |
| Status LED: | Dual-color red/green, blinks during setup |
| LED brightness: | LED can be enabled or disabled locally or via software |
| Local Control: | No |
| Commands supported as controller: | On / Off |
| Commands supported as responder: | N/A |
| Software configurable: | Yes |
| RF range: | Up to 50 meters open air |

Mechanical

| | |
|-----------------------|---|
| Mounting: | Wall mount or tabletop stand (included) |
| Casing: | UV stabalized plastic (INSTEON White) |
| Wire Connections: | N/A |
| Set button: | Yes |
| Beeper: | Yes |
| Beep on button press: | Optional (off by default) |
| LED: | Two-color: Green and Red |
| Dimensions & Weight: | 145mm W x 87mm H x 28mm D - 249g |
| Operating Conditions: | Indoors, 0° C to 40° C, up to 90% relative humidity |

Electrical

| | |
|------------------------------------|---|
| Supply Voltage: | 2 AA batteries (included) or 5VDC adapter (sold separately) |
| Frequency: | 50/60Hz auto-detected at power-up |
| Retain all settings without power: | Yes, saved in non-volatile EEPROM |
| Standby power consumption: | 22 micro-Amps |
| Safety approved: | Approved for use in Australia and New Zealand |
